By signing below, the requestor(s) acknowledge that they have read, understand, and agree to abide by the following conditions for use of the requested data.

1. The requested data will be used only to meet the above stated objective of study. Changes to the objective and/or extensions of the timeline must be reported to New Jersey Division of Fish and Wildlife, Marine Fisheries Administration (Administration) staff and may require additional approval.
2. Only the investigative team (*i.e.* individuals identified above as principal investigators, collaborating scientists, or support staff) will be provided access to the data for the above stated objectives of study. Changes to the investigative team must be reported to Administration staff and may require additional approval.
3. Exclusive of item 2 above, requested data may not be distributed for any reason to other parties by any individual or entity other than the Administration.
4. Requested data was collected following a specific experimental design tailored to a specific purpose that may influence or constrain any subsequent analysis.
5. Requested data will be used in a manner consistent with any standards of integrity/honesty mandated by the requestor's institution.
6. The Administration will be acknowledged in all end products resulting from use of requested data, and the Administration will have input on the form that acknowledgement takes (*e.g.* simple acknowledgement, co-authorship, etc.).
7. Fulfillment of the data request does not constitute endorsement by the Administration of any analyses or end products derived from the requested data.
8. The principal investigator(s) are responsible for ensuring the investigative team understands and abides by the conditions set forth in this agreement.
9. Failure to abide by the above conditions is justification for denial of future data requests.
